SUMMARY

Information Systems graduate focused on cybersecurity, with hands-on experience in SOC operations, SIEM monitoring, incident response, and security automation (SOAR), gained through a security operations internship, technical training, and independent home-lab projects.

EXPERIENCE

Security Operations & Automation Engineer Intern — ZeroSploit MEA *El Agouza, Egypt (Hybrid)* Oct 2025 – Jan 2026

- Built ELK log pipelines using Winlogbeat, Filebeat, Fluent Bit, and Logstash for Windows/Linux logs
- Developed n8n SOAR automations for security operations, data retention, and vulnerability remediation
- Performed detection engineering through AD attack simulations, Sigma rule development, and MITRE ATT&CK mapping

PROJECTS

Enterprise Multi-Site Network Infrastructure Jul – Aug 2026

- Designed a resilient HQ + Branch network in Cisco Packet Tracer with HSRP/EtherChannel redundancy, OSPFv2/v3 dual-stack routing, and layered security using ACLs, Port Security, and SSH hardening

Automated Phishing Incident Response Pipeline Apr – May 2026

- Built an n8n SOAR pipeline for automated email ingestion, threat-intel enrichment (VirusTotal/AbuseIPDB), heuristic scoring (SPF/DKIM/DMARC), and instant SOC alerting

Multi-Stage Active Directory Attack Detection Jan 2026

- Simulated a full AD attack chain (Initial Access to Lateral Movement), authored custom Sigma rules, and validated detections end-to-end via ELK Stack

SOC Home Lab: SIEM & SOAR Integration Oct – Dec 2025

- Built a full ELK-based SIEM (Elasticsearch, Kibana, Fluent Bit, Winlogbeat) with custom detection use cases and an n8n SOAR pipeline for automated incident escalation

Windows Server & Active Directory Jul – Sep 2025

- Built an environment with GPO policies, DHCP failover, DNS, IIS high availability, and Hyper-V with automated backups

All projects — including additional labs, technical articles, and CTF write-ups — are documented at abdelwahab-a-shendy.github.io

SKILLS

Networking: Troubleshooting, TCP/IP, Routing & Switching, VLANs, OSPF, HSRP, EtherChannel, NAT, ACLs, DHCP, DNS, Firewalls, IDS/IPS
Systems & Infrastructure: Active Directory, Group Policy, Windows Server Administration, Linux Administration
DFIR & SOC: SIEM (ELK, Splunk), Sigma Rules, MITRE ATT&CK, Threat Hunting Fundamentals, Threat Intelligence Fundamentals, Wireshark, PCAP Analysis, Digital Forensics Fundamentals, Malware Analysis Fundamentals, Log Analysis & Monitoring
Automation: SOAR (n8n), JavaScript Custom Logic, API Integrations

CERTIFICATIONS

Certified Incident Responder(eCIR)—INE Security (2026)
Google Cybersecurity Professional Certificate (2023)
Google IT Support Professional Certificate (2023)

TRAINING & BOOTCAMPS

Penetration Testing — CyberTalents (Oct 2025)
Windows Server Administration — NTI (Aug 2025)
.NET Developer — EraaSoft (Nov 2024 – May 2025)
Network Security — ITI (Aug 2023)
Security Operations Center — WE INNOVATE (Sep – Oct 2025)
Networks Infrastructure — ITI (Jun 2025)
Security Operations Center — AMIT Learning (Jun – Sep 2023)
Cybersecurity Fundamentals—Raya Academy (Oct – Dec 2022)

HONORS & AWARDS

- GDG Future Academy CTF — Ranked **10th** of 106 participants in a 72-hour Capture The Flag competition (Mar 2026)

EDUCATION

B.Sc. Business Information Systems — MCI Academy Aug 2022 – Jun 2026

- Graduation Project (**Team Leader**) : Automated Business Intelligence pipeline using n8n and AI

Languages: Arabic (Native) | **English** (Professional Working Proficiency) | **French** (Beginner)
